

Heavy Plant Fitter

Salary: (depending on experience)
Contract Type: Permanent
Location: East Boldon, Tyne and Wear and UK wide

We are seeking an experienced heavy plant fitter to work in our East Boldon site but working throughout the North East.

The Company's services include: Demolition, Dismantling, Asbestos Removal, Bulk Excavation and Land Remediation.

About the Role:

The successful applicant will be responsible for the repair and maintaining of various types of heavy plant including excavators, loading shovels, crushers and screeners.

The key duties include;

- Regularly inspecting engines, gearboxes, hydraulics & electrical systems
- Identifying faults, dismantling parts and repairing faulty parts
- Reassembling parts and testing them to make sure they are working properly and safely
- Arranging for machinery that cannot be fixed site on site to be moved to the workshop and carrying out routine servicing of plant and equipment both on site and in the workshop

Key skills required are:

- You must have the ability to work alone without direct supervision
- You must be able to make decisions and implement your own ideas and solutions
- Own car and driving licence

You would use various hand and power tools in your job, as well as specialist computer fault-finding equipment, electrical testing equipment and welding equipment

Required experience:

- Plant Fitting: 5 years

Required licence or certification:

- Full clean driving licence

How to apply:

Please send a copy of your CV and covering letter to: lauren@g-obrien.co.uk

NOTE: If you do not hear from us within 4 weeks you have been unsuccessful on this occasion.
